

MATRIX

(Magnum Chall HVP x Estancia LL by Magnum Psyche)
2005 Chestnut stallion

Matrix is a very proud and charismatic young stallion, with great movement. He's tall and extremely well built, his rare liver chestnut color makes him a true eyecatcher in the ring. Already a proven show winner; Matrix is the 2008 Middle East Champion Junior colt and also the National Champion colt of Jordan. He also had a nice show record as a youngster in USA being twice regional champion among other titles.

Matrix was born in the purple...no wonder why he's so successful

His sire is Magnum Chall HVP, bred in south America this amazing chestnut stallion has won everything; He's Scottsdale, Canadian, USA and Brazilian national champion ! all in a few years as Magnum Chall is still very young. His abilities as a sire have been felt worldwide very quickly, the list of his champion offspring is just too long to be named. He's; among many other facts; the sire of the Scottsdale champion filly three years in a row.

Magnum Chall's sire does not need any introduction: Magnum Psyche, the one and only the most famous son of the legendary US National reserve champion Padrone Psyche. Magnum Psyche is several times US National champion and is unbeaten in the breeding charts ! his children have won worldwide at the highest level. He's just an icon of the breed. Known for his extremely long and refined neck and his special look Magnum is one of the most influent stallions in the world today.

Magnum's dam line is straight Spanish and Magnum's success put this bloodline's back under the spotlights, this is the smallest gene pool in the whole Arabian horse bloodlines. The dam of Magnum, A Fancy Miracle, is a result of the great cross between the two Spanish legends Garbo and Galero. Magnum Chall's dam line is very interesting, his mother is a daughter of the ultra exotic stallion Don El Chall who's by Prichal one of the best sons of Aswan the Egyptian stallion offered to Russia many years ago who just made history in the Russian program. Prichal's dam is Palmira a straight Russian mare sired by Salon. Salon is also the source of extreme necks and the sire of the super stars Muscat, Moment, Ponomarev and many more....

An incredible source of champions

If Matrix sire line is just wonderful his dam line is equally interesting. His own mother Estancia LL caught the eyes of many Arabian horse lovers in the world when appearing in the magazine, this refined beauty with huge eyes, unbelievable neck and topline, and striking look just took the show world by storm. Estancia is like Magnum Chall, sired by Magnum Psyche. She's herself a grand champion mare in Scottsdale and she got a Top Ten at the US National in mare halter. Estancia is truly an unique individual and we're really proud to own her son. Estancia's beauty comes from her sire but also from her gorgeous bay mother, a daughter of another legend of the breed, the 4 times US National Champion: Khemosabi. Khemo has he was known during his long lifetime (he died at the age of 33 years young !) was the incarnation of versatility, or how form can be combined to function....Khemosabi won many championships and he became the ultimate image of the Arabian horse for many breeders and enthusiasts, his name in a horse pedigree is truly a guarantee of beauty and success, whatever the discipline you want to do.

Looking at this incredible amount of champions and champion producers in Matrix pedigree, it's not surprising he's already a very consistent show winner. His impeccable conformation is the result of many years of careful selection, his type comes from both his sire and dam line, he's very hard to fault!

His first babies are anxiously awaited by all the NK team and supporters for this spring. But we do not worry.....there's no accident, there's only history.
